### PROFILE SUMMARY

Full-Stack Developer with a strong foundation in .NET technologies and hands-on experience in front-end and back-end development. Proficient in C#, HTML, CSS, JavaScript, and React, with expertise in building web applications, APIs, and e-commerce platforms. Skilled in third-party API integration and back-end deployment.

Additionally, I managed administrative and social media operations in healthcare, enhancing efficiency and engagement. A problem-solver with a passion for learning, I deliver high-quality projects and contribute to open-source development. Fluent in Arabic, English, and Turkish.

### WORK EXPERIENCE

March, 2024 - November, 2024

Abdul Aziz Al Ghurair School of Advanced Computing | Luminus Life + .Net FullStack Developer Internship

- Prep-Course
  - Skilled in Git, GitHub branches and wireframes.
  - Front-End Development: Proficient in HTML, CSS, and JavaScript, Experienced in React for frontend development and deployment.
  - Back-End Development: Competent in server building, Node, third-party API integration, and databases for CRUD operations. Proficient in back-end deployment strategies.
- Advance-Course
  - Completed intensive C# development course covering foundational and advanced topics including methods, debugging, unit testing, object-oriented programming, data structures, databases, API development, MVC architecture, and modern web technologies.
  - Gained practical experience through hands-on projects including building an ATM system, implementing data structures, developing APIs, and creating e-commerce platforms.
  - Explored complex topics such as authentication, authorization, payment processing, and Unity game development.
  - Actively engaged in discussions on ethics and open-source contributions, fostering a holistic understanding of software development principles.

January, 2020 - December, 2023

Patient Administrator and Social Media Manager  
Part Time

- Managed administrative operations and social media presence for a psychiatric clinic from 2020 to 2024, part-time. Successfully handled patient files, accounting, and appointment scheduling, streamlining
- processes and improving efficiency by 30%. Managed the clinic's and doctors' social media accounts, achieving a 40% increase in follower growth and 35% boost in engagement rates. Coordinated marketing strategies across platforms, leading to a 25% rise in patient inquiries. Optimized appointment scheduling, reducing no-show rates by 15% and enhancing overall patient satisfaction. Provided valuable insights through data analysis, contributing to a 20% improvement in clinic management and operational effectiveness.
